- Proficient in: PHP, MySQL, Ruby on Rails, Java, Flex, .NET, C#, C++, Objective-C
- ActionScript, BASH, CSS, Flash, JavaScript, SQL, XHTML, XML

### Software

- Platforms: Windows, Linux, Mac OSX, HP-UX, Solaris, AIX
- Apache, IIS, Mongrel, CVS, SVN, Xcode, Adobe/Macromedia Suite, Photoshop, Amazon EC2 / S3

---

## EXPERIENCE

**Junior Software Engineer** June 2010-Present  
**Software Development Internship** June-Aug. 2009  
May-Aug. 2008

---

### *PROS Revenue Management*

- Software Development – *prospricing.com*
  - Employed agile and test-driven development methodology to code enhancements in the user interface for PROS’ Pricing Solution Suite using Flex, JavaScript, and Java.
  - Upgraded and certified PROS’ suite of products against the latest versions of the required third-party CORBA and optimization tools (Borland Visibroker, ILOG CPLEX, COIN-OR).

---

**Mobile & Web Developer / Designer** Jan. 2004-Present

### *Honey Bear Webdesign*

- My Flickr Facebook Application – *kalebdf.com/myflickr* (May 2007-Present)
  - Facebook and Flickr API based web app to display user specific Flickr photos on Facebook.
  - Most-used Flickr mash-up app on Facebook with 330,000+ users.
- UH Guide iPhone Application – *Apple App Store* (Fall 2009)
  - Created an extensible app with Campus Map (search/directions), Weather, Twitter, and Flickr.
  - Implemented a Ruby on Rails backend to process requests and push updates.
  - Led team of 4 and developed using Objective-C with Three20 and Route-Me frameworks.
- Team 2 XYZ Home Security – *class project* (Fall 2008)
  - Exercised software engineering practices as team leader of 4 in all phases of development.
  - Created and integrated mock-up security scenarios with Flash and JavaScript.
  - Developed using Ruby on Rails with Prototype and Script.aculo.us libraries.
- Phone Lookup – *kalebdf.com/phonelookup* (June 2007-Aug. 2009)
  - Created an automated PHP and cURL script to process lists of high school juniors and seniors gathering phone numbers from online resources for UH Honors College recruitment.
  - Results: ~86% matched phone numbers in several lists of thousands. 160+ hours saved.
